CVM LIBRARY NEWSLETTER

SEPT. 2012

Diversify Your Search Technique

A new article in the Journal of Veterinary Medical Education advises that **CAB Abstracts** should be included in any veterinary literature search, including systematic reviews. The authors found that CAB Abstracts and Scopus had the greatest coverage of core veterinary serials (98.3% and 97.5%, respectively), whereas Medline, the primary component of PubMed, only covered 82.6%. MSU Libraries provides you with access to both of these powerhouse databases: click here to go to CAB Abstracts: <http://bit.ly/UstAKT> and click here to go to Scopus: <http://bit.ly/QmqCXu> Read more about the veterinary librarians' analysis at Grindlay, D., Brennan, M., Dean, R. Searching the Veterinary Literature: A Comparison of the Coverage of Veterinary Journals by Nine Bibliographic Databases. Journal of Veterinary Medical Education [Internet]. Advance online article. DOI: 10.3138/jvme.1111.109R. Available at: <http://bit.ly/OPUI3O>

New: CABI's VetMed Resource

Speaking of CAB Abstracts, we've also just added access to CABI's VetMed Resource: <http://www.cabi.org/vetmedresource/> DVMs and other experts have collected all of CABI's veterinary information into an easy-to-browse interface. VetMed Resource contains news on the latest

veterinary research, prepared searches on important topics, data sheets on a variety of organisms and pathogens, an abstract search with customized veterinary search tools, and a great thesaurus. CABI's international presence gives VetMed Resource a global emphasis unlike any other database. Students, practicing veterinarians, and pathobiology researchers will definitely want to explore this new resource.

Workshops in the Wise Center

You asked—we deliver! Workshops on searching, productivity and research will be held here in the Wise Center over the course of the school year. All are welcome!

- All College Day: *Social Networking for Academia* with Amanda Clay Powers, Thursday, Oct. 11th, 3:30 PM, Wise Center auditorium.
- *How to Use PubMed* with Brad Brazzeal, Thursday, Nov. 8th, 3:00 - 4:00 PM, CVM Library classroom. Please bring your computer to practice searches along with the instructor.

Stay tuned for news about more Wise Center workshops, including sessions on iPads and other mobile devices, EndNote, developing a literature review, veterinary search basics, and Excel.

Our doors are always open to help you. Contact: Laurel Sammonds at lsammonds@library.msstate.edu or call the CVM Library at 662-325-1256

Events on Campus

Mitchell Memorial Library on main campus has even more offerings you may be interested in. Find out about these and *many* more workshops at <http://library.msstate.edu/workshops>

- I Can't Believe I Missed That! Using Alert Services, 3 PM on Sept. 21st
- Developing a Literature Review (online class), 11 AM - 2 PM on Sept. 11th

PubMed Central Changes Its Name to PMC

PubMed Central, the National Center for Biotechnology Information's repository of open-access articles, has officially changed its name to "PMC" to avoid confusion with PubMed, the National Library of Medicine's search interface for Medline. PMC houses the articles that are required to be publicly accessible if the researchers have received National Institutes of Health funding. Some search results in PubMed have links to PMC articles. If you're used to finding free articles in PubMed Central, you should be aware of the name change. Confused? Check out this excellent blog post from the Texas Medical Center's Library that explains the whole thing: <http://bit.ly/RMe2h0>

New Books at Your CVM Library

Author	Title	Year	Format
Wildgoose	<i>BSAVA manual of ornamental fish</i>	2001	Print
Cowell	<i>Diagnostic cytology and hematology of the dog and cat,</i>	2007	Print
Moyer	<i>Equine joint injection and regional anesthesia, 5th ed.</i>	2011	Print
Chandler, Gaskell and Gaskell	<i>Feline medicine and therapeutics, 3rd ed.</i>	2004	Print
Dallas, North and Angus	<i>Grooming manual for the dog and cat</i>	2006	Print
Sirois	<i>Handbook of radiographic positioning for veterinary</i>	2010	Print
