Featured Book of the Month

Pathology and Wildlife of Zoo Animals

By Karen A Terio, Denise McAloose, and Judy St. Leger

Pathology of Wildlife and Zoo Animals is a comprehensive resource that covers the pathology of wildlife and zoo species, including a wide scope of animals, disease types and geographic regions. It is the definitive book for students, biologists, scientists, physicians, veterinary clinicians and pathologists working with non-domestic species in a variety of settings. General chapters include information on performing necropsies, proper techniques to meet the specialized needs of forensic cases, laboratory diagnostics, and an introduction into basic principles of comparative clinical pathology. The taxon-based chapters provide information about disease in related groups of animals and include descriptions of gross and histologic lesions, pathogenesis and diagnostics. For each group of animals, notable, unique gross and microscopic anatomical features are provided to further assist the reader in deciding whether differences from the domestic animal paradigm are "normal." Additional online content, which includes text, images, and whole scanned glass slides of selected conditions, expands the published material resulting in a comprehensive approach to the topic.

Workshops

Getting the Most out of Scopus

November 5, 10 am (Online)

Scopus is a multidisciplinary database with strong coverage in sciences, engineering, and social sciences. This workshop will show advanced features of Scopus such as cited reference searching, setting up folders, creating search alerts, and maintaining a Scopus author page. Other search tips will be provided as well.

Best Practices in Visual Resources

November 9, 10 am (Online)

Using visual resources without permission is theft. Visual resources include images, charts, tables, graphs, and maps. If you use one of these types of resources in your work, you must cite it. This includes papers, presentations, theses/dissertations, publications, blogs, etc. Learn to use and cite visual resources correctly.

Introduction to Zotero

November 9, 2 pm (Online)

Zotero is a free cloud-based citation management system that captures journal articles, books, webpages, and newspaper articles, to seamlessly save them for citations and bibliographies. It comes with a MS Word plug-in to easily manage citations while writing.

Avoiding Plagiarism for Graduate Students

November 11, 1 pm (Online)

This workshop will discuss the importance of ethical research and strategies to avoid plagiarizing sources.

Data Management Best Practices

November 16, 10 am

November 16, 2 pm (Online)

Learn how to manage your research data with best practices and tips. The workshop will cover writing Data Management Plans for grant applications using DMPTool.
