Featured Book of the Month

Equine Hematology, Cytology, and Clinical Chemistry (eBook)

By Raquel Walton, Rick Cowell, and Amy Valenciano

The all-new *Equine Hematology, Cytology, and Clinical Chemistry* draws on hematology and clinical chemistry information featured in the first edition of *Equine Clinical Pathology* and adds valuable cytopathology material from *Diagnostic Cytology and Hematology of the Horse*, making it a truly definitive reference to clinical pathology in equids. Thoroughly updated and expanded throughout, this *Second Edition* offers more images, more information, and new knowledge for previous chapters and entirely new chapters on bone marrow evaluation and cytopathology. Designed to present clear, concise, and clinically relevant information, the book is logically organized for easy reference. Numerous figures, tables and images support the text, together with summarized information for ease of use.

Workshops

Leveling Up with LinkedIn

April 5, 3 pm (Online)

Learn how to take advantage of promoting yourself to the 756 million members (and counting) when you are looking for a career start. You will learn actionable and helpful changes you can make daily to make yourself the most desirable to recruiters.

Using Social Media Responsibly

April 7, 2 pm (Online)

What does your social media presence say about you? Admissions officers, employers, and Grandma are all looking at your online profile, so make sure it's the most flattering side! We will help you create and curate your social media experience to work for you. From projecting a professional image, to avoiding hashtag fails and the spread of misinformation, this workshop will have you covered.

Where Should I Publish? How to Select the Right Journal

April 19, 2 pm (Online)

Determining where to publish your research is one of the most important decisions every scholar makes in their career. This workshop will cover how authors should go about selecting the right journal in which to publish their scholarship. We will include how to evaluate Open Access journals in that process. We will also cover how to avoid "predatory" journals.
