Featured Book of the Month

The Immune System (5th edition)

By Peter Parham

A thoroughly updated introduction to immunology, now with powerful online assessment and robust instructor resources. The Immune System is a concise yet thorough human-oriented introduction to how the human immune system works. It provides an up-to-date presentation of the field, written in an accessible style, replete with relevant medical examples. Plentiful illustrations and micrographs complement and illuminate the explanations. The Fifth Edition is supported by InQuizitive, Norton's award-winning, easy-to-use adaptive learning tool that provides student practice and promotes critical thinking.

Online Newsletter

This newsletter along with numerous other articles and resources are available in the Institutional Repository in [Scholar's Junction](#) on the Mitchell Memorial Library's site.

Special Printing

Need a poster or banner printed for your presentation? The Digital Media Center can help. The Digital Media Center at the Mitchell Memorial Library offers printing in color or black and white on a variety of paper sizes and types. Check out the printing costs at <http://lib.msstate.edu/documents/> or to place your order.
