January 31st
Gen. S. G. Lee,
Dear Sir:-

I have long had a desire to perfect myself in the manufacture of the American (Coxless) type of Steam engines and ice making machinery. So this Fall, I will connect myself with a company where I will have the opportunity to embrace the practical work; both of the drawing room and machine shop. The demands for really first class engineers are becoming greater and greater as the days go by, and it will

policy for me to embrace
certain opportunities.

I write this early in the
session in order that if you
desire to have one of the stud-
ents perfect himself in certain
lines to act as instructor, we
may have time to drill him.

As no change will be
made in my plans before
October, I desire to remain
in the employ of the College
until Sept. 15th.

If I can in any way be
of service in selecting instructors,
please call on me.

Most Respectfully Yours,
Harry Guinness.

P.S. Would like to have
about three testimonials in regard
to my worth. Yours - H. Guinness
