Hon J. M. Stone
A & M College.

Dear Sir

I have an eighteen year old Boy who wants to enter your College he is deficient in his left arm but is stout every other way he is ready to enter the 9th Grade in our City School but prefers to go to your school on account of its facilities especially in the Chemical department He wants to study Pharmacy or to get started on that line and we want to fit him up on something that he can manage with a crippled hand. He is a great Boy to hunt and fish and go into like amusements, and to keep

him here longer with his
old associates would be kill
ing time I think.

He smokes but does not
drink.

I think the principal studies
he would like to pay most at-
tention to, would be Mathemat-
ics, Chemistry, English & Latin

There is nothing that I would
appreciate more than for you
to take hold of him and start
him in on the right line
and keep him there to a finish
of course if he can get some-
thing to do as he goes along
to help meet expenses it will
be the better for us as money
don't grow on trees down this
way.
